WHY CIMARRON IS THE BEST BUY

Cimarron is recognized as the leader in quality and authenticity in replica firearms. For the past 30 years, Cimarron has worked continuously to perfect the authentic detail, fit, finish and function of our line of frontier firearms. There is no other firearm that is near equal in value, strength, reliability, and authentic detail as is the line from Cimarron Firearms Co.

Owner Mike B. Harvey listening to Roy Rogers circa 1952.

Cimarron Model 'P' rated *Best Buy* in **GUN TESTS** Magazine when compared to competing firearms.

Cimarron Model 'P', Richards-Mason Conversion, Open Top and 1873 Rifle rated *Best of the West* in **THE WEST** Magazine.

Cimarron is the leader in innovation for old west firearms reproductions, and is proud to have created the following new models, making our guns more reliable, higher in quality and historically accurate.

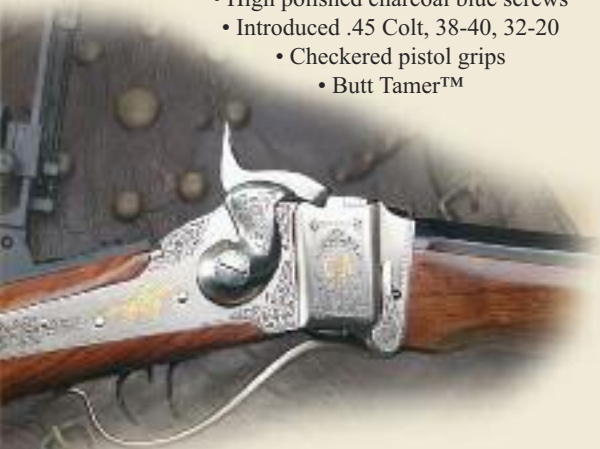

Revolver Details

- Cowboy Comp® Action
- 3 1/2" barrels with ejector
- High polished charcoal blue screws
- First generation Colt hammer w/no unsightly internal safety
 - Color case hardened hammer
- First generation hammer with CCH
- Cylinder face beveled as 1st generation
 - Pinch frame rear sight
 - Grip frame accepts Colt screws
 - US color case finish option
- Original Finish option (antique)
 - Improved springs

Rifle Details

- High polished charcoal blue screws
- Introduced .45 Colt, 38-40, 32-20
 - Checkered pistol grips
 - Butt Tamer™

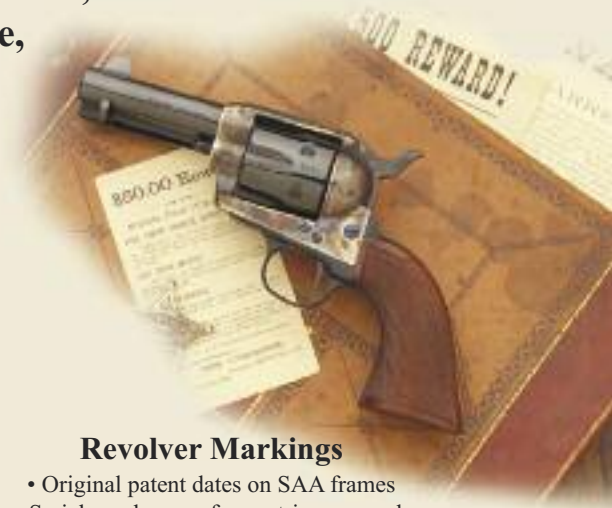

Handgun Introductions

- U.S. Cavalry Model
- U.S.V. Artillery Model
 - Thunderer®
- Thunderer® Mounted Shooting Gun
- New Sheriff Model w/Ejector
 - 1872 Open Top
- Richards-Mason® Conversion
- Richards Type II Conversion
 - Lightning® Single Action
 - Model 'P'
 - Model 'P' Jr.
 - Wyatt Earp Buntline
 - Rooster Shooter
- Man With No Name® Conversion
 - Man With No Name® SAA
 - Stainless Model 'P'
- Evil Roy Competition Model
- 1858 Remington Conversion
- Cimarron 1911 WWI GI Issue
- Thunderstorm™ for mounted competition
- Remington Pocket Conversion
 - Three screw action
- Short stroke hammer throw

Rifle Introductions

- Civil War Henry
- Rifle From Down Under
- Billy Dixon Sharps Rifle
- Texas Ranger Sharps Carbine
 - 1873 Short Rifle
 - 1873 Long Range
 - Texas Brush Popper®
 - 1873 Saddle Shorty
 - 1873 16" Trapper
- Little Rascal™ (Sharps)
 - 1876 Centennial
 - 1876 Carbine
- 1876 N.W. Mounted Police

Revolver Markings

- Original patent dates on SAA frames
- Serial numbers on frame, trigger guard, backstrap and cylinder
- Hid foreign proof marks not required by law

CIMARRON: LIKE NO OTHER

When it comes to innovation and authenticity, Cimarron leads - others follow!

- Forged Steel Frame • Superior Cylinder and Barrel Steels • Superior Authenticity • Superior Fit •
- Superior Polish • Hardened & Polished Internal Parts • Cowboy Comp Action • Hand Fitted Walnut Stocks •

A. Uberti S.p.A.

Cimarron keeps a substantial inventory of 19th century firearms from our extensive collection on hand and at the factories, and acquires special tooling used to produce Cimarron models. For more on the Cimarron collection, view our documentary on our YouTube channel: <http://www.youtube.com/cimarronfa> "The Story of Cimarron"

OPTIONAL FINISHES

Note: All guns in our catalog are featured in standard blue finish with color case hardened frame, unless otherwise noted.

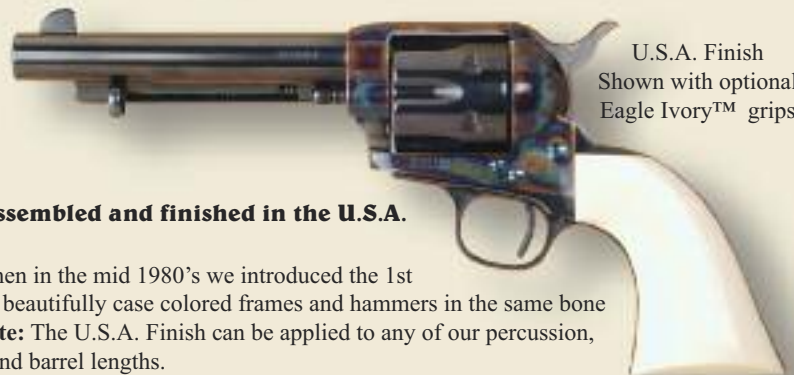

Cimarron Original Finish®

Cimarron Polished Nickel Finish

Charcoal Blue
Color Case Hardened frame

U.S.A. Finish
Shown with optional
Eagle Ivory™ grips

The Frontier Six Shooter - assembled and finished in the U.S.A.

Cimarron was a long shot ahead of "he who follows" when in the mid 1980's we introduced the 1st Colt Replica finished in the U.S.A. The firearm features beautifully case colored frames and hammers in the same bone charcoal and leather technique used on the originals. **Note:** The U.S.A. Finish can be applied to any of our percussion, single action, '73 or '76 rifles. Available in all calibers and barrel lengths.

CIMARRON ORIGINAL FINISH 

1847 Walker

Whitneyville Dragoon .44

1860 Fluted .44 McCullough Model

In 1860, the Federals pulled out of Texas. Ben McCullough made a quick deal with his friend Sam Colt for the purchase of 1000 of the 1860 model to be used by Rangers protecting the western frontier. 500 of the Colts were smuggled into Texas through the Federal blockade by way of Louisiana. These fluted Army models are known as the McCullough Colts.

Factory Engraved Model 'P' 7 1/2" in Cimarron's Original Finish

"Cimarron's Original Finish completely changes the personality of your firearm. Everyone will think you are shooting great grand-dad's original nineteenth century Colt or Winchester. Those of you who demand the highest level of authenticity in a reproduction firearm are a rare breed. These are for you."

- Mike B. Harvey

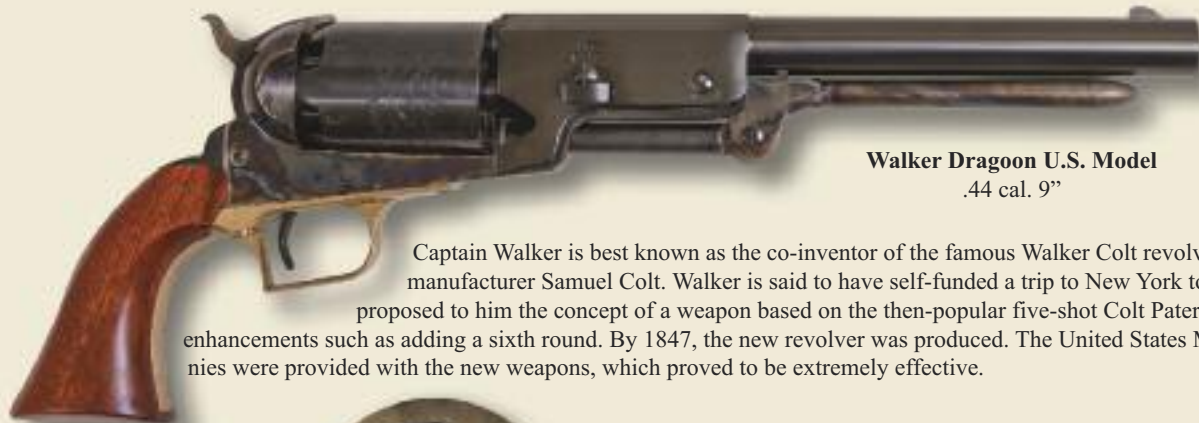

1873 Sporting Rifle

CIMARRON DRAGOON REVOLVERS

“The Colt Paterson, Col. Sam's 1st revolver, was put to test by the Republic of Texas Rangers in the late 1830s. Armed with the new Patterson revolver, fifteen Rangers in central Texas, near San Antonio at Plum Creek, defeated a fierce band of 100 marauding Comanche warriors. The battle of Plum Creek made evident the need for Col. Colt's revolver on the American frontier. Regardless, in 1838 Colt was bankrupt.

In 1846, Texas Ranger Captain Sam Walker sought help from Col. Colt to strengthen Texas' limited forces during the war with Mexico. The result was the production of the Colt Walker and the return of Col. Colt to the manufacturing of the great firearms pictured on these pages. No region and no state made a greater contribution than did Texas in the making of Col. Colt's Firearms Co. No weapon, no firearm played a greater role than did the Colt revolver in the making of Texas and the opening of the American West.”

- Mike B. Harvey

Walker Dragoon U.S. Model
.44 cal. 9”

Captain Walker is best known as the co-inventor of the famous Walker Colt revolver, along with arms manufacturer Samuel Colt. Walker is said to have self-funded a trip to New York to meet with Colt and proposed to him the concept of a weapon based on the then-popular five-shot Colt Paterson revolver, with many enhancements such as adding a sixth round. By 1847, the new revolver was produced. The United States Mounted Rifle companies were provided with the new weapons, which proved to be extremely effective.

CIMARRON POCKET MODEL REVOLVERS

The Colt 1862 Police Percussion Revolver is considered by many collectors as the quintessential model in the development of the cap and ball revolvers. Manufactured from 1848 until approximately 1873, it was designed in response to the demand for pocket pistols by both civilians and the police force.

CIMARRON 1858 REMINGTON REVOLVERS

The Remington Model 1858 Army was one of the favorite side arms of the boys in blue during America's period of social unrest that some refer to as the Civil War, known for its superior strength and accuracy due to the top strap style frame. This high quality Cimarron Model 1858 Army reproduction features parts interchangeable with the original.

CIMARRON CONVERSIONS

In 1871, Colt employee Charles Richards was awarded a patent for converting Colt percussion models to breech loading cartridge revolvers. The Richards cartridge conversion was an instant success. On July 2, 1872, William Mason, another Colt employee, was awarded a patent for an improvement to the Richards model. As percussion parts ran short, the 1860 Richards-Mason barrel was changed from the profile of the earlier percussion model to the sleek profile found on the 1871-72 Open Top.

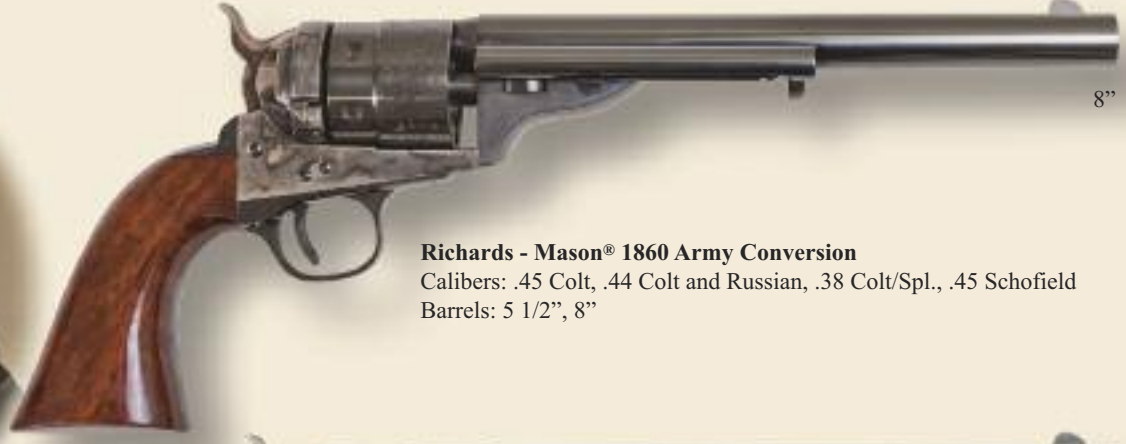

7 1/2"

Richards - Mason® 1851 Navy Conversion
 Calibers: .38 Colt & S&W Spl.
 Barrels: 4 3/4", 5 1/2", 7 1/2"

Conversion models remained popular with cowboys (many originals have been found with imprints of fence staples on the butt) even after the introduction of the Colt Peacemaker® in 1873. This was due to conversion models costing \$5 - \$6, while the Peacemaker® cost \$15.

Charles B. Richards was an engineer who worked for Colt. Richards' first major design along with William Mason was Colt's 'Richards-Mason Conversion'.

8"

Richards - Mason® 1860 Army Conversion
 Calibers: .45 Colt, .44 Colt and Russian, .38 Colt/Spl., .45 Schofield
 Barrels: 5 1/2", 8"

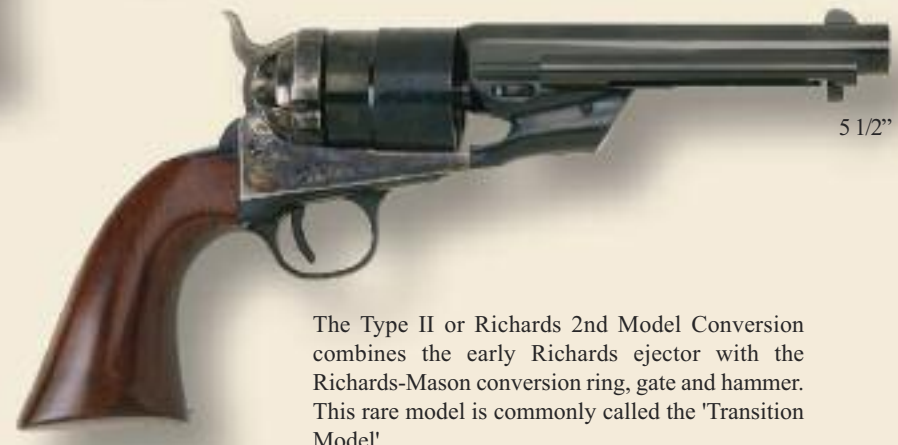

8"

Richards Transition Model®
 Calibers: .45 Colt, .44 Colt, .44 Spl., .38 Spl.
 Barrels: 5 1/2", 8"

William Mason was an engineer and inventor who worked for Colt's Patent Fire Arms Manufacturing Company in the 19th century.

5 1/2"

The Type II or Richards 2nd Model Conversion combines the early Richards ejector with the Richards-Mason conversion ring, gate and hammer. This rare model is commonly called the 'Transition Model'.

CIMARRON OPEN TOP® & NEW MODEL ARMY 

1872 Open Top® Army (Late)
 Calibers: .45 Colt, .44 Colt/Russian, .44 Spl./Colt/Russian, .38 Colt/Spl.
 Barrel : 7 1/2"

"The graceful lines created by nineteenth century artisans have been fully captured in this late 20th century work of art in steel. The Cimarron Open Top®, made from the Cimarron collection, is without a doubt the finest replica to come forth in the last decade."

- Mike B. Harvey

1872 Open Top® Navy (Early)
 Calibers: .45 Colt, .44 Colt/Russian, .44 Spl./Colt/Russian, .38 Colt/Spl.
 Barrels: 4 3/4", 5 1/2", 7 1/2"

5 1/2"

New Model Army
 Calibers: .45 Colt, .44 WCF, .38 Spl.
 Barrels: 5 1/2", 7 3/8", 8"

8"

The 1858 New Model Army was originally made in rimfire and centerfire metallic cartridges and priced for the civilian trade at \$9.00. Like the 1872 Open Top, these revolvers were not converted from a percussion model but instead were manufactured to fire a cartridge.

5 1/2"

CIMARRON MODEL 'P' & BISLEY

The Model 'P' featuring Cimarron's superior fit and finish has long been the most authentic and highest quality reproduction of the 1873 Colt Single Action. Rugged and dependable inside, the new Model 'P' with Cimarron's Cowboy Comp[®] action eliminates weaknesses associated with the 19th century design of the 1873 Colt Single Action.

- 7 1/2" - More accurate with higher velocities than shorter barreled models.
- 5 1/2" - A very popular compromise between quick handling and accuracy.
- 4 3/4" - The most popular barrel length. Lightning fast, perfect balance.

CIMARRON MILITARY MODELS

George Armstrong Custer's 7th Cavalry Models were inspected for ordnance by civilian inspector Orville W. Ainsworth, shipped to Ft. Lincoln and used by troops of the 7th Cavalry. Each authentic firearm is properly marked with OWA Cartouche, 2 line patent dates and U.S. on the frame. This model is limited to 2000 units each of the 5 companies that perished under Custer's command at Little Big Horn.

Caliber: .45 Colt
Barrel: 7 1/2"

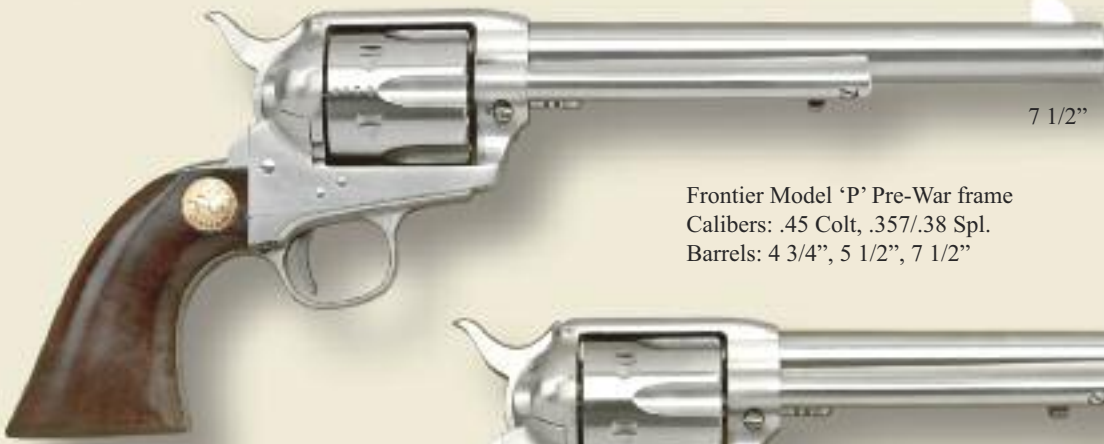

U.S. Scout Model The U.S. Cavalry models were nickel plated and issued to Indian scouts. Nickel plating was needed to give extra protection to the scout guns.

Caliber: .45 Colt
Barrel: 5 1/2"
Shown in optional Charcoal Blue

U.S.V. Model. The Indian Wars were over and the 1873 U.S. Cavalry Models were in a state of disrepair. They were returned to the factory or to Springfield Arsenal to be refurbished. There, the barrels were changed from 7 1/2" to 5 1/2" and the working parts replaced. They were inspected by Rinaldo A. Carr and returned to service. Many of these firearms saw action in the Spanish American War of 1898. Most were issued to artillery batteries and were known as the Artillery Model. In 1898, the first U.S. Volunteer Cavalry is formed under the command of Theodore Roosevelt. This group of gallant young cowboys from all parts of the American West were recruited in a San Antonio bar and trained at Camp Wood, Texas. They would carry more than 100 of these Artillery models bravely in the charge up San Juan Hill. These historic American cowboys will be known forever as the "Rough Riders".

Texas Ranger
Bill McDonald

Built to compete with Samuel Colt's single action, the 1875 style revolver was every bit as reliable and accurate as the much lauded Colt. The revolver retained the webbed barrel of previous percussion designs. This distinctive design was favored by outlaw Frank James and Texas Ranger Bill McDonald, who both praised the handling of this classic revolver.

Frank James

Model 1890

Calibers: .45 Colt, .45 Colt/.45 ACP Dual Cyl.,
.44 WCF, .357/.38 Spl.
Barrel: 5 1/2"

Original 1890 Remington revolvers were manufactured from '90 to '96. They were produced in very small numbers, and were the last revolvers made by Remington. It is one of the most prized cowboy revolvers among Old West collectors. Of the fewer than 2,000 produced, a handful of 1890s saw service as side arms carried by Native American police on Western reservations.

7"

Model No. 3 Schofield

Calibers: .45 Colt, .44 WCF, .38 Spl.

Barrels: 3 1/2", 5", 7"

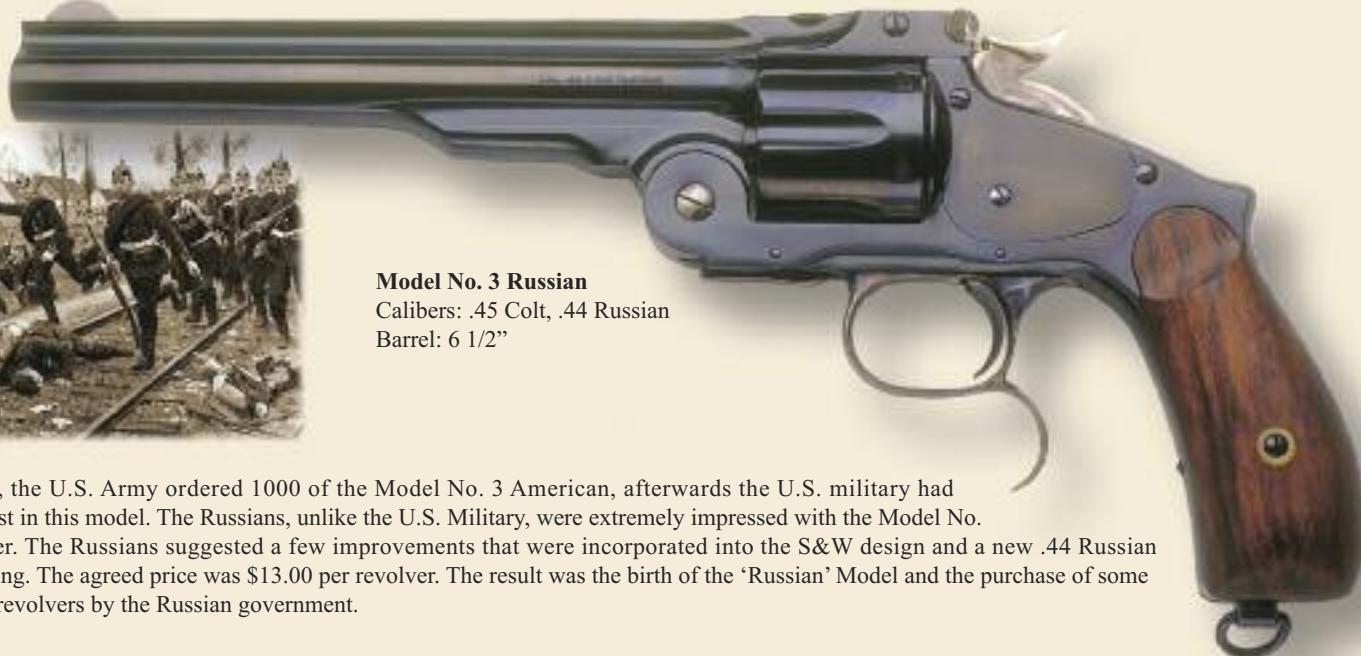

5"

In the late 1860's, the U.S. Army was shopping for a breech loading fixed cartridge revolver to replace the aging 1860 Colt. They tested the Colt Single Action and the S&W Model No. 3 American. The test resulted in the adoption of the Colt Single Action Army Model of 1873 and passing on the less powerful and more delicate 1869 S&W Model No. 3 American.

The superior reloading capability of the S&W American was recognized by Army ordinance. Major George W. Schofield identified and patented improvements in the design of the S&W Model No. 3 American and the Model No. 3 Schofield was born.

The latch on the Schofield can be operated with one hand while on horseback and empty cases are automatically ejected. It is considered by many to be superior to the Colt Single Action when in the hands of mounted troops. The Army purchased some 9000 Schofields, but due to a lack of promotion by the maker, one of America's greatest firearms ceased production.

Model No. 3 Russian

Calibers: .45 Colt, .44 Russian

Barrel: 6 1/2"

In 1870, the U.S. Army ordered 1000 of the Model No. 3 American, afterwards the U.S. military had no interest in this model. The Russians, unlike the U.S. Military, were extremely impressed with the Model No. 3 revolver. The Russians suggested a few improvements that were incorporated into the S&W design and a new .44 Russian chambering. The agreed price was \$13.00 per revolver. The result was the birth of the 'Russian' Model and the purchase of some 130,000 revolvers by the Russian government.

The Wild Bunch™ 1911 as
used in Sam Peckinpah's 1969
classic western.

CIMARRON HOLLYWOOD GUNS

Doc Holliday Thunderer® Combo
Inspired by the movie *Tombstone*

3 1/2" .45 Colt Nickel-plated with simulated ivory grips. Each gun has "Doc Holliday" hand engraved into the backstrap, along with the number of the set. Also comes with a simulated ivory-gripped dagger engraved with the same number just in case you run out of ammunition. Throw in a matching shoulder holster to hold them both and you have one truly special package.

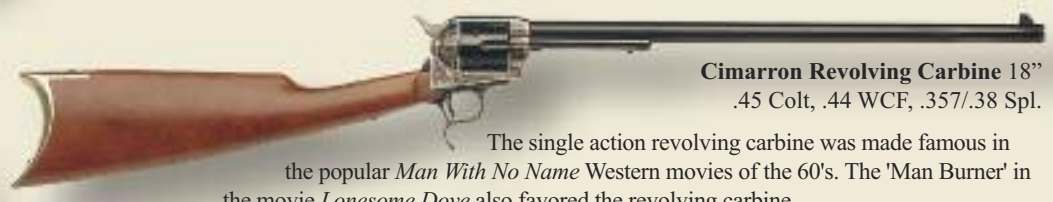

Wyatt Earp Buntline™ 10"
.45 Colt

The Wyatt Earp Buntline™ was made famous in the movie *Tombstone*. The plaque on the walnut stock is hand cast in solid sterling silver, then hand inlaid onto the stock. Walnut display case available.

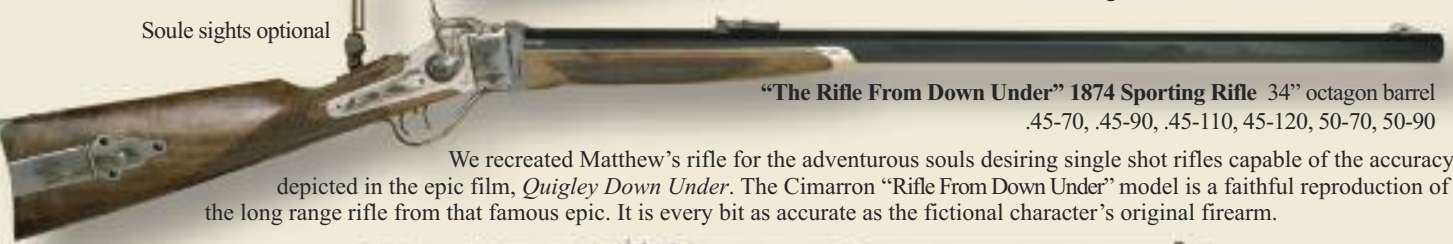

Silver inlaid grip medallion

Soule sights optional

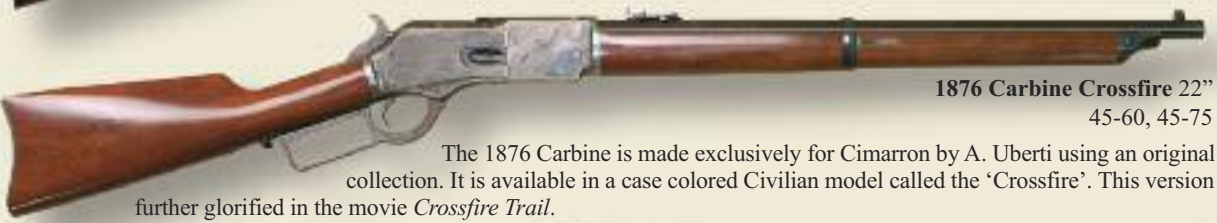

Cimarron Revolving Carbine 18"
.45 Colt, .44 WCF, .357/.38 Spl.

The single action revolving carbine was made famous in the popular *Man With No Name* Western movies of the 60's. The 'Man Burner' in the movie *Lonesome Dove* also favored the revolving carbine.

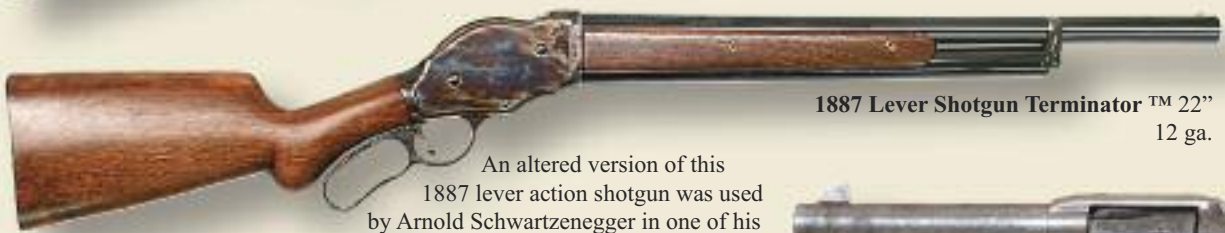

"The Rifle From Down Under" 1874 Sporting Rifle 34" octagon barrel
.45-70, .45-90, .45-110, 45-120, 50-70, 50-90

We recreated Matthew's rifle for the adventurous souls desiring single shot rifles capable of the accuracy depicted in the epic film, *Quigley Down Under*. The Cimarron "Rifle From Down Under" model is a faithful reproduction of the long range rifle from that famous epic. It is every bit as accurate as the fictional character's original firearm.

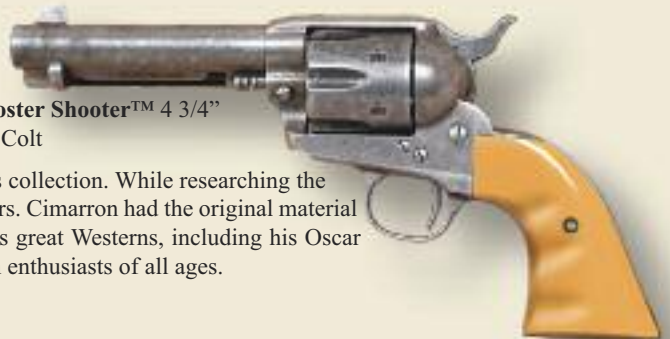

1876 Carbine Crossfire 22"
45-60, 45-75

The 1876 Carbine is made exclusively for Cimarron by A. Uberti using an original from the Cimarron collection. It is available in a case colored Civilian model called the 'Crossfire'. This version of the gun was further glorified in the movie *Crossfire Trail*.

1887 Lever Shotgun Terminator™ 22"
12 ga.

An altered version of this 1887 lever action shotgun was used by Arnold Schwarzenegger in one of his greatest action movies *The Terminator*.

Rooster Shooter™ 4 3/4"
.45 Colt

The inspiration for this piece of cinema history came from the Cimarron Firearms collection. While researching the grip material, Cimarron learned that the material had not been available for 50 years. Cimarron had the original material remade so a replica of our western hero's Colt Single Action used in many of his great Westerns, including his Oscar winning performance in *True Grit*, would be available to the firearms and western enthusiasts of all ages.

CIMARRON PISTOLERO® AND PLINKERTON® 

Pistolero®

CIMARRON REPEATING ARMS

The 1866 Yellowboy lever-action rifle was a marked improvement over the Henry rifle. It was the first true cowboy lever-action rifle, and the first rifle widely carried in a cowboy-style saddle scabbard. The Yellowboy had a convenient new type of loading gate, devised by Winchester plant superintendent Nelson King. The gate passed cartridges through the side of the receiver. This improvement made the lever action more functional and allowed for the installation of a wooden fore-end. The handy carbine version of the 1866 Yellowboy was a hit worldwide. Chief Sitting Bull had one; the forces of Benito Juarez used the rifles in Mexico; and the Turkish Army used the new Winchester Yellowboy against the Russians.

CIMARRON REPEATING ARMS

Winchester's 1873 rifle was the "Rifle that Won the West." It was chambered in a new, more powerful cartridge: the .44-40—a .44 caliber bullet, propelled by 40 grains of black powder. However, a factor that really insured the success of the 1873 Winchester rifles was that Colt quickly offered its Peacemaker chambered in .44-40 as well. A cowboy could have both a lever-action rifle and his six shooter, and needed only one cartridge belt for both. Most Texas Rangers and every old west cowboy worth his salt carried 1873 rifles. Chappo, the son of Apache war chief Geronimo, packed an 1873. And Buffalo Bill carried an 1873 lever-action rifle along with a pair of .44-40 Colts in 1876 when he worked as an Army scout.

CIMARRON REPEATING ARMS

The Cimarron Model 1892 rifle is manufactured on John Browning's patents of 1884, the same patents covering the earlier and larger Model 1886 rifle. The 1892 was introduced by Winchester to replace the aging 1873 Model and was made in popular calibers proven in the Model 1873.

45-70
Scope sight optional

The Winchester Model 71 is a big game lever-action rifle introduced in 1935. The Cimarron copy of the Model 71 is chambered in 45-70 and, like the original, is a slightly modified version of the Browning designed Winchester Model 1886. This rifle is very effective against any North American big game, including the great bears. It was the rifle of choice in Canada and Alaska.

CIMARRON REPEATING ARMS

The Winchester Repeating Arms Company introduced the Model 1876 at the Philadelphia Centennial, celebrating the 100 year anniversary of the Declaration of Independence from British rule. The 1876 was chambered in much more powerful hunting cartridges than the 1873 model. The '76 was the favorite hunting rifle of one of the greatest American outdoorsmen, Theodore Roosevelt.

45-60, 45-75

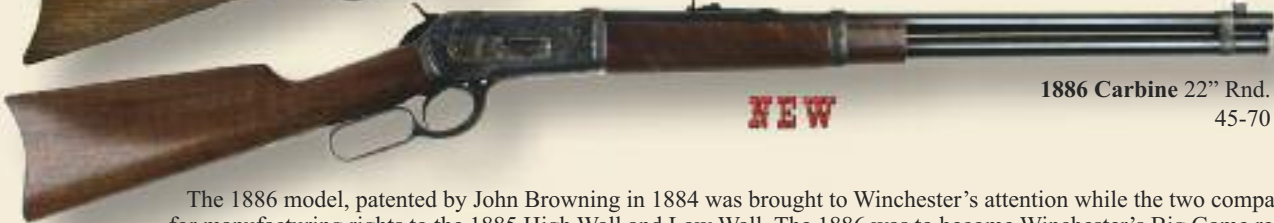

1876 Carbine Crossfire 22" Rnd.
45-60, 45-75

The 1876 Carbine is made exclusively for Cimarron by A. Uberti using an original from the Cimarron collection. It is available in a case colored Civilian model called the 'Crossfire'. This version of the gun was further glorified in the movie *Crossfire Trail*. An all blued, 45-75 North West Mounted Police (N.W.M.P.) model is also available. The 1876 saddle ring carbine was their weapon of choice.

1886 Rifle 26" Oct.
45-70

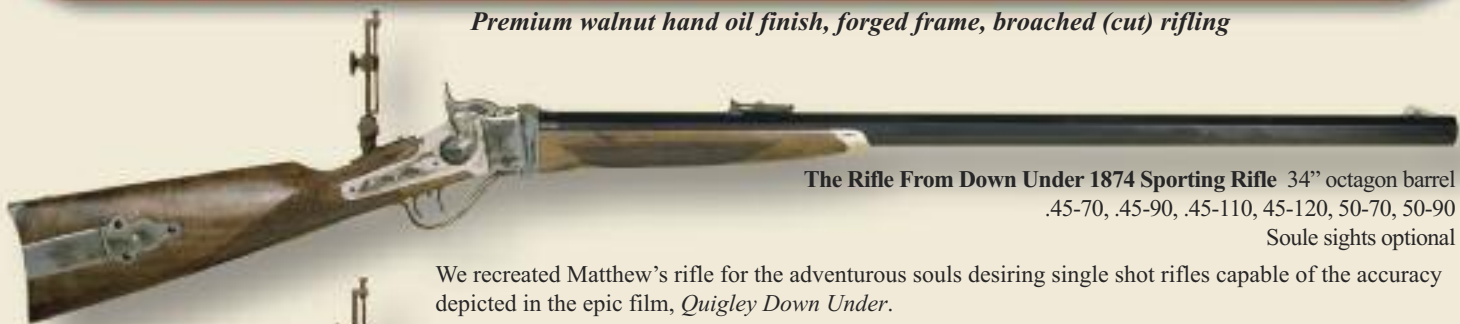

1886 Carbine 22" Rnd.
45-70

The 1886 model, patented by John Browning in 1884 was brought to Winchester's attention while the two companies were negotiating for manufacturing rights to the 1885 High Wall and Low Wall. The 1886 was to become Winchester's Big Game repeater, often seeing action in Africa, and became Theodore Roosevelt's favorite until it ceased production in 1932. Today, original '86's in good condition bring a big premium from hunters and collectors. The Cimarron Model 1886 is every bit as strong and accurate as the original at 1/10th the price.

CIMARRON SINGLE SHOT RIFLES

Premium walnut hand oil finish, forged frame, broached (cut) rifling

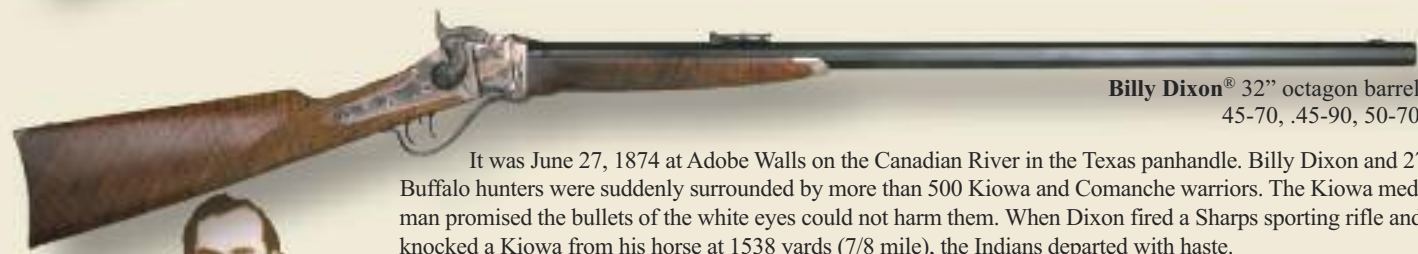

The Rifle From Down Under 1874 Sporting Rifle 34" octagon barrel
.45-70, .45-90, .45-110, 45-120, 50-70, 50-90
Soule sights optional

We recreated Matthew's rifle for the adventurous souls desiring single shot rifles capable of the accuracy depicted in the epic film, *Quigley Down Under*.

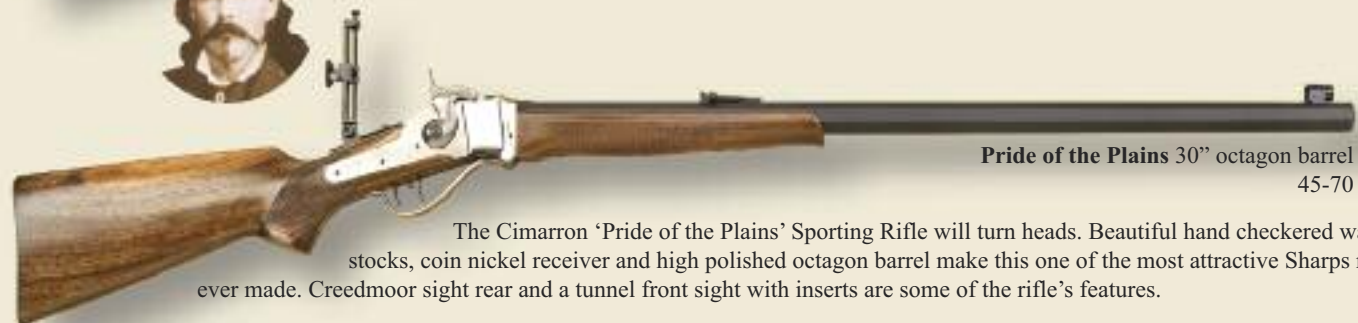

Big Fifty® 34" octagon to round barrel
50-90

The Cimarron 'Big Fifty'® is our top of the line Sharps Rifle. There are none better when comparing style or accuracy. This model features upgraded wood, hand checkered pistol grip stock, upgraded finish, case hardened receiver, silver German nose cap and 34" octagon to round barrel with cut rifling. Comes with Soule Midrange sights, spirit level and globe front sight with inserts.

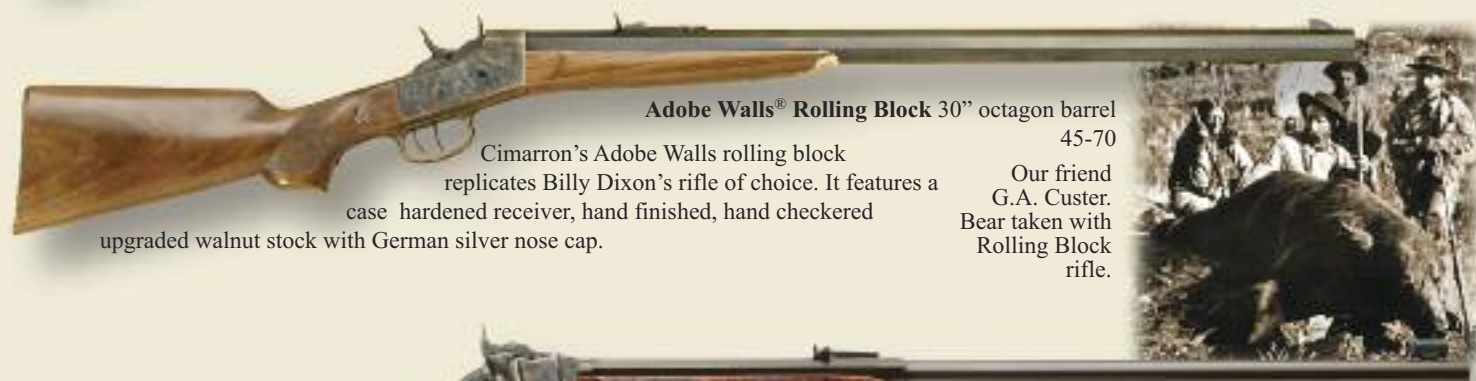

Billy Dixon® 32" octagon barrel
45-70, .45-90, 50-70

It was June 27, 1874 at Adobe Walls on the Canadian River in the Texas panhandle. Billy Dixon and 27 Buffalo hunters were suddenly surrounded by more than 500 Kiowa and Comanche warriors. The Kiowa medicine man promised the bullets of the white eyes could not harm them. When Dixon fired a Sharps sporting rifle and knocked a Kiowa from his horse at 1538 yards (7/8 mile), the Indians departed with haste.

Pride of the Plains 30" octagon barrel
45-70

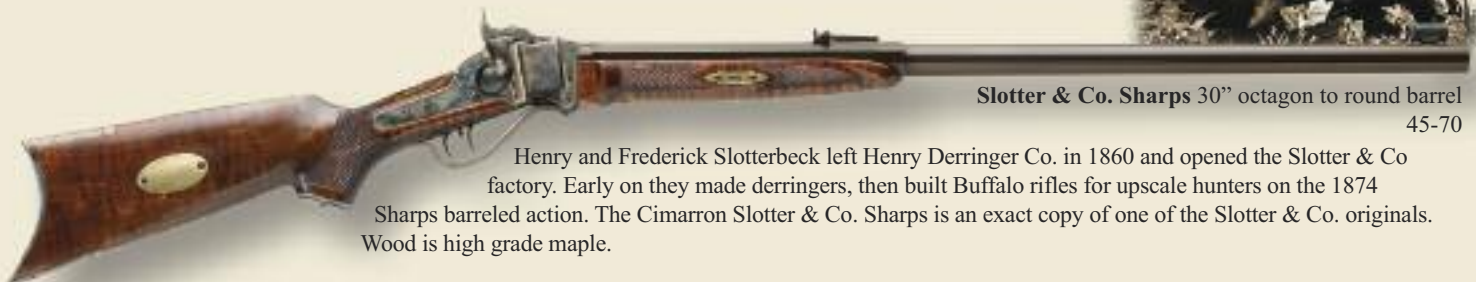

The Cimarron 'Pride of the Plains' Sporting Rifle will turn heads. Beautiful hand checkered walnut stocks, coin nickel receiver and high polished octagon barrel make this one of the most attractive Sharps rifles ever made. Creedmoor sight rear and a tunnel front sight with inserts are some of the rifle's features.

Adobe Walls® Rolling Block 30" octagon barrel
45-70

Cimarron's Adobe Walls rolling block replicates Billy Dixon's rifle of choice. It features a case hardened receiver, hand finished, hand checkered upgraded walnut stock with German silver nose cap.

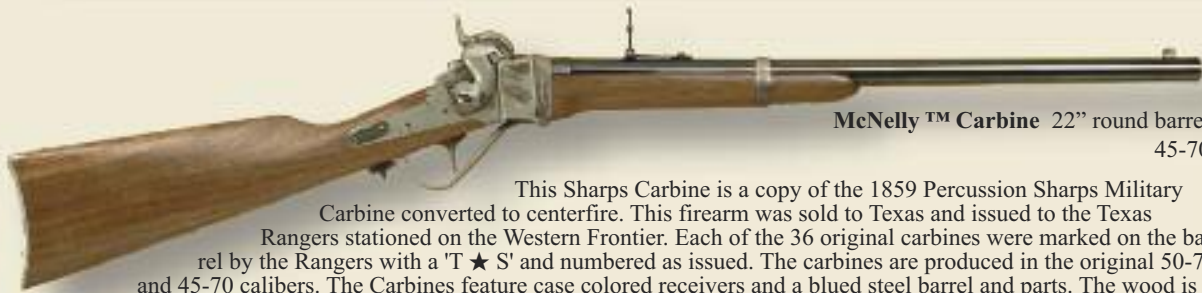

Our friend
G.A. Custer.
Bear taken with
Rolling Block
rifle.

Slotter & Co. Sharps 30" octagon to round barrel
45-70

Henry and Frederick Slotterbeck left Henry Derringer Co. in 1860 and opened the Slotter & Co factory. Early on they made derringers, then built Buffalo rifles for upscale hunters on the 1874 Sharps barreled action. The Cimarron Slotter & Co. Sharps is an exact copy of one of the Slotter & Co. originals. Wood is high grade maple.

CIMARRON SINGLE SHOT RIFLES

McNelly™ Carbine 22" round barrel
45-70

This Sharps Carbine is a copy of the 1859 Percussion Sharps Military Carbine converted to centerfire. This firearm was sold to Texas and issued to the Texas Rangers stationed on the Western Frontier. Each of the 36 original carbines were marked on the barrel by the Rangers with a 'T ★ S' and numbered as issued. The carbines are produced in the original 50-70 and 45-70 calibers. The Carbines feature case colored receivers and a blued steel barrel and parts. The wood is American black walnut as was used on the original Texas Ranger carbines.

McNelly Ranger ca. 1870

Standard Blue finish, Color Case Hardened Frame

Patent markings as on original Sharps.
Featured on Cimarron's Chiappa Sharps only.

CIMARRON SINGLE SHOT RIFLES

"The 1885 High Wall is no doubt stronger than the Sharps rifle, better designed, made of better materials and is of better appearance than that famous arm... All these rifles proved very accurate and reliable in every way."

- Major Ned Roberts, author

1885 High Wall Sporting Rifle w/ pistol grip 30" Oct.
45-70, 45-90, 40-65, 38-55, 30-40 Krag, .405 Win.

High Wall & Low Wall
Double Set Trigger option

Pawnee Bill

1885 High Wall Sporting Rifle 30" Oct.
45-90, 45-70, 40-65, .405 Win, 38-55, .348 Win, 30-40 Krag
Shown with optional D03 tang and TS05 front target sights

The above testimony by the foremost expert in the field of single shot rifles says something for the design of this rifle. It is used exclusively where accuracy is demanded. Be it long range competition, Wild West shooting exhibitions (Pawnee Bill was a High Wall shooter) or sport hunting, John Browning's High Wall design was then and is once again king of the range. The Cimarron High Wall is available with sporting model single or double set triggers. Walnut stocks are either straight or hand checkered pistol grip style. Cimarron's High Wall receiver is of the more stylish "Thin Side" class, while our Low Wall is the "Thick Side" version.

CIMARRON F.A. Co.

"The Highest Standards"
Est. 1984

Cimarron is proud to sponsor the following champions from many corners of the shooting world

"Evil Roy" Gene Pearcey
SASS World Champion Shooter
SASS National Champion Shooter

"I would shoot any Cimarron Firearm Evil Roy revolver out of the box at any match."

"Outlaw Annie" Bianco-Ellett
CMSA World Champion Shooter

"I'm confident every time I go out and make a run."

Kenda Lenseigne
World Champion Cowgirl

"With so much on the line in such a short amount of time, its imperative that all components come together flawlessly. My Cimarron Thunderstorm gives me the confidence I need to focus on shooting straight to the top".

Joey Dillon
World Champion Gun Spinner
Hollywood Gun Coach

"What I do with my Cimarrons would make any normal shooter cringe."

Phil Spangenberg
Old West Historian
Wild West Showman

"In addition to the quality and reliability of Cimarron's guns, they possess a certain look and feel that says 'Old West'."

Jim Rogers
Founder of CMSA
CMSA World Champion Shooter

"Cimarron Single Actions are at the top of my list for balance, reliability and authenticity. Attention to detail makes the Cimarron look and feel just like the originals of the late 1800s."

Jim Dunham
Booth Western Art Museum,
Old West Historian

"I am glad to recommend Cimarron to any and all who are interested in Old West guns. They have been my main performance guns for years. The balance is the very best for spinning, twirling, fancy gun handling, and fast draw."

"Pistol Packin' Paula"
World Champion Gun Spinner

"I love to twirl Cimarron's because they are very balanced guns and they are very sturdy guns for shooting."

"Team Cimarron is proud to join Pietta Firearms in this very worthwhile 'Young Guns' project. To say the least this new program has been a smokin' success!" -Mike B. Harvey

2014 Cimarron Young Guns
